

4-in-a-Row Equivalence

Materials:

- A game board, three 6-sided dice, two color counters

Directions:

- Roll three dice at the same time and select two dice to create an equivalent fraction to a fraction on the game board.
- Represent the 2 selected dice as a fraction. (Discard #3 die)
- Use a color marker to cover an equivalent fraction on the game board.
- The winner is the first player to cover 4 squares in a row.
