

Up and Down the Number Line

Directions: This game is for two players (or two teams of players). 1 counter and a paper clip.

Player 1 is trying to get to get to the one on the number line. Player 2 is trying to get to the zero on the number line. One chip is placed at the start position ($\frac{1}{2}$). Player 1 spins the spinner and adds that distance to a half and places the counter in the new position. Player 2 spins and subtracts the distance shown on the spinner. The first person to reach their number exactly, wins the game.
